# Annual Report 2021

January 1, 2021–October 31, 2021

**Mission:** *Creating independence for people with intellectual and developmental disabilities by promoting social inclusion, wellness, and self-advocacy programs in West Central Minnesota*

**Impact:** Wellness goes beyond physical exercise; it also includes mental and emotional health. AIM takes a holistic approach to its health promotion services. We provide activities on a regular basis to support peer connection, skill development, inclusion in the community, and improved wellness outcomes.

AIM serves over a thousand people on an annual basis. Some of our most popular programs are the Healthy Living Classes, Consumer Conference, Spring Dance, and the Fall Festival. AIM also serves the community by offering seminars on disability topics.

At the core of AIM is our People First group. These self-advocates meet monthly for social, educational, and wellness activities. People First raises their own funds, elects their own officers, and plan their events. They are also very active in volunteering!

Walking Club

Fall Dance
